

Utility Options Broadband

Business-class broadband from Utility Options*. Not to be confused with "pile 'em in, sell it cheap" products for the less fussy residential market, we offer high quality broadband at competitive prices. Choose the usage level you require, so you don't pay for what you don't use.

Benefits of our broadband service include reduced invoices and admin, as we simply add it to your monthly bill. The maximum distance limit for broadband has been removed, so now everyone has at least the chance of having a permanent internet connection, even if it's fairly slow compared to the highest attainable speeds. Free transfer if you are out of contract and obtain a Migration Authorisation Code (MAC) from your existing supplier.

Key features:

- Up to 8Mb download speed**
- Up to 832kb upload speed**
- Free static IP address

£59.99 * Utility Options Telecom Account required. 12 Month Contract and payment by Direct Debit required.

£49.99 One-Off Connection Charge (free if MAC code obtained from existing provider)** Maximum speed achieved will be based on product selected and a number of factors including distance from exchange and phone line quality. Real-world download speeds will vary between approx 200kbps & 7.2Mbps. This will be determined during the first 10 days of connection, as the service works out the maximum speeds your line can sustain.
